🏗️ Nov. 9, 2026

The white membrane which will protect our roof for years to come has been installed over the entire building and the contract for our brand-new dishwasher is officially signed!

Up next: Getting bids on the parking lot renovation and window upgrades! Also, installing the brand-new dishwasher, air conditioning and updated controls, and standing seam steel on the building's exterior!

🏗️ Sept. 12, 2026

Big progress on roof work!

Major transformations are taking place overhead. The old roof shakes are coming down the roof’s gravel top has been removed. The roof portion over the Sanctuary is now fully sealed with a brand-new protective membrane, plus the Sanctuary’s roof drains have been replaced.

Up next: More roof replacement and metal panel preparation.

📏 Aug. 24, 2026

Big changes are underway!

Work has officially begun on our flat roof replacement! Safety measures are in place, the old gravel is cleared, and crews have loaded supplies up top to start removing the old roof.
